NINGBO DEJIA WATER METER

NINGBO DEJIA
WATER METER CO., LTD

QUALITY MANAGEMENT SYSTEM CERTIFICATE

Certificate Number: SW17Q20748R0S

This is to Certify that the Quality Management System of
Ningbo Dejia Water Meter Co., Ltd.

Organization Code/Unified Social Credit Code: 91330282599461742C

Registration Address: No.555, North Haiguan Road, Gutang Subdistrict, Cixi City, Zhejiang Prov.(315300)

Production Address: No.555, North Haiguan Road, Gutang Subdistrict, Cixi City, Zhejiang Prov.(315300)

Has been Audited to Conform to the Following Quality
Management System Standard:
GB/T19001-2016/ISO9001:2015

For the Whole Process of:
Production and Service of Water Meter for Export.

(Issued By)

Date of Issue: Sep 10, 2017
Date of Expiry: Sep 09, 2020

SHANGHAI SAILWAY CERTIFICATION CO.,LTD.

Room 401, Building 21, No.481, Qipeng Road, Xuhui District, Shanghai

A surveillance audit must be carried out every 12 months within the three-year validity period. Also, it is only valid along with the anniversary confirmation. Effectiveness of the certification, you can search CNCA website: www.cnca.gov.cn or search the website of certification body: www.sailway-china.com.

EC Certificate of Compliance

NO.: UTS 17 06 0009

Applicant: NINGBO DEJIA WATER METER CO.,LTD.

Address: No.555 Haiguan North Road, Gutang Street, Cixi, Zhejiang, China

Manufacturer: NINGBO DEJIA WATER METER CO.,LTD.

Address: No.555 Haiguan North Road, Gutang Street, Cixi, Zhejiang, China

Product: Water Meter

Model: LXSG15-50

Test standard : ISO 4064-1:2014

The tests were performed in normal operation mode.

The test results apply only to the particular sample tested and to the specific tests carried out. This certificate applies specifically to the sample investigated in our test reference number only. The manufacturer has the permission to affix the following CE marking to Measuring equipment and manufactured in accordance to the scope covered by this Quality-Assurance System.

Certificate of the Type Examination No. UTS 17 06 0009 (Module B of Directive

2014/32/EU(MID))

Certificate of Quality System No. SW17Q20748R0S (Module D of Directive

2014/32/EU(MID))

Manager

SING JET METER

Operation:

The water enters the meter from the inlet of the meter body and impacts the vane wheel at the tip of the vane blades to make it rotate. The water flows out from the outlet of the body. The rotation of the vane wheel (proportional to the velocity of water flow) is transmitted directly to the central gear in the vacuum-sealed register by the magnetic coupling. The sealed register totalizes and indicates the water volume passing through the meter.

>>> Features:

1. Wet, dry, liquid sealed
2. For hot or cold water
3. Small, light
4. Brass body or plastic body, optional
5. Brass body can be painted or nickel coated
6. High accuracy
7. The meters conform to ISO 4064:2014 and 2004/22/EC(MID:B+D)

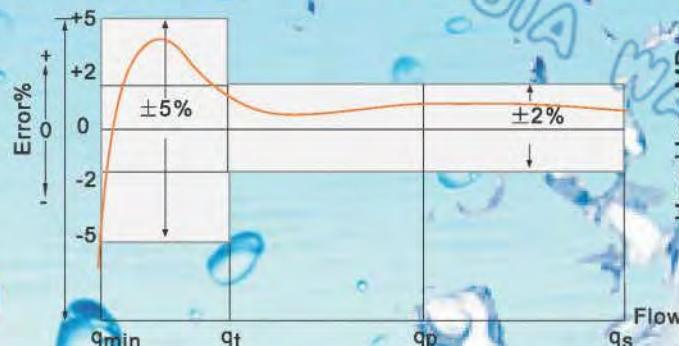

>>> Working condition:

- Water temperature $\leq 50^{\circ}\text{C}$ (Hot water meter $\leq 90^{\circ}\text{C}$)
- Water pressure $\leq 1\text{ MPa}$ (PN: 1.6MPa/16bar)
- $\Delta P \leq 0.1\text{ MPa}$

>>> Accuracy:

- From minimum flow-rate (q_{\min}) inclusive, to transitional flow-rate (q_t), exclusive: $\pm 5\%$
- From transitional flow-rate (q_t) inclusive, to overload flow-rate (q_s), exclusive: $\pm 2\%$ (Hot water meter: $\pm 3\%$)

Domestic electronic remote-reading water meter

>>> Standards:

ISO 4064 (=GB/T 778-2007)

ISO 4064 (equivalent to GB/T 778-2007)

it is to measure total volume of drinking water flowing through water supply pipelines and carry out pulse transmitting signals.

>>> Features:

- Remote transmitting sensor optional
- Adopting sensors with high reliability, strong anti-interference, long service life
- Remaining technical parameters of original water meters
- Remaining displaying reading function of original water meters
- Special structure design, advanced testing techniques to ensure reliable signal collection
- The maximum transmission distance from water meter to data collection device is 150 m.
- Wide application range, matching with a variety of data collection devices
- Dry dial or wet dial, hot water or cold water meter optional.
- Some can be improved from ordinary water meters.

20	A	5	2.5	250	100	0.0001	99999
	B			200	50		

Struture principle & Feature

mctc adopts sensor device with high sensitivity and strong anti-interference function; it can collect water consumption volume of water meter from long-distance and collected data is accurate and reliable; it is provided with remote transmitting signal function and remains measurement function through word wheel reading of original water meters; it can be connected with computers, which is convenient for centralized management by computers. The maximum transmitting distance from water meter to flow volume collector is 150 meters.

One or multiple remote transmitting water meters can be connected in accordance with the flow volume collecting system. The meter can be applicable to most of meter data collection systems.

INDICATING ERROR
 Accuracy between q_{min} and $q \pm 5\%$
 Accuracy between q_{min} and $q \pm 2\%$

WORKING CONDITION

Working water temperature for cold water: $\leq 35^{\circ}\text{C}$
 Working water temperature for cold water: $\leq 90^{\circ}\text{C}$
 Working pressure $\leq 1.0 \text{ Mpa}$

SELECTED METER TYPE

LXSY-15E-65E,LXSRY-15E-65E rotor wet remote transmitting cold (hot) water meter See the above table for main technical parameters, and nominal bores include include 15,20,25,32,40,50, and 65. See appearance dimensions and weight table in LXSY-15E-65E and LXSC-13D-25D and LXSR-13D-25D for appearance dimenSIONS. Optional types of remote transmitting sensors:dry spring pipes, Hall elements,optoelectronic elements

LXSCY-13D-25D,LXSCRY-13D-25D single-streaming rotor dry remote transmitting cold(hot) water meters See the above table for main tech nical par ameters, and nominal bores include 15,20, and 25. See appearance dimensions and weight ta ble in LXSC-13D-25D and LXSR-13D-25D for appearance dimendions. Optional types of remote transmittingswnsors:dry spring pipes,Hall elements, optoelectronic elements

LXSGY-15E-50E,LXSGRY-15E-50E rotor dry remote transmitting cold (hot) water meterSee the above table for main technical parameters, and nominal bores include 15,20,25,32,40, and 50. See app earance dimensi ons and weight table in LXSG-15E-65E and LXSGR-15E-65E for appear ance dim ensions. Opti onal types of remote transmitting sensors:dryspring pipes and Hall elements.

LXHY-8 rotary-piston volume remote transmitting purified water meter See the above tablefor main technical parameters, and nominal bores include 8. See appearance dimensions andweighttablein LXH-8 for appearance dimensions. Optional types of remote transmitting sensors:dry spring pipes and Hallelements. Pulse constant is a pulse/1.

SELECTED METER TYPE

Pulse constantcan be determined in accordance with user's requirement.

Lead wire is generally 1~1.2 meters long(it can be determined in accordance with users's requirement).

Lead wire can beoptionally equipped with stainless steel protective cases and is 500-900 mm long.

End connecting screw thread M8x1 is 5 mm long.

lead wire connection way

Connecting wire of dry springpipe sensor iswo-core and without polarity.

Connecting wire of Hall elements is three-core. Thered is power cathode(3-3.6V), the green is output and the green is commonly grounding.

Connecting wire of optoelectronic elementis four -core. Thered is power cathode (4.5-15V),the green is output,the yellow is backup detection end, and the black is commonly grounding.

NINGBO DEJIA
WATER METER CO., LTD

Rotary Piston Water Meter (Volumetric Meter)

Operation:

A volumetric meter is the device fitted into a closed conduit, which consists of chambers of known volume and a mechanism driven by the flow, whereby these chambers are successively filled with water and then emptied. The water to be measured enters the inlet of the body and its pressure sets the piston into rotation. Every rotational cycle of the piston discharge a fixed volume of water to the meter of body. The number of rotation of the piston is totalized through a reduction gear, to totalize in the register, when the total volume of water is registered.

Features:

- Rotary piston system, long service life
- Dry-dial or liquid sealed register, keeps clear reading for long time
- High measuring accuracy, the starting flow of the meter is 2 l/h or less
- LXH-15-20 can be installed in any position
- Brass body or engineering plastic body, optional
- m³ or gal, optional
- Remote transmission device can be added upon request
Many kinds of sensors, such as Reed Switch, Hall and Weagand can be supplied upon request
Pulse output may be 1l/pulse ,10l/pulse
- The meters conform to ISO4064 standard Class C or Class D

水平可拆卸干式冷(热)水表

HORIZONTAL WOLTMAN DETACHABLE DRY TYPE WATER METER

规 格 (Specification): LXLC-50E 200E

产品类别 (Type): 大口径水表 (WOLTMAN TYPE)

用途: 记录流经自来水管道饮用冷(热)水的总量。

特点: 本系列水表为干式水表, 采用字轮码显示, 计算机构与测量机构之间由磁铜偶合传动, 具有结构先进、读书方便、压力损失小、维修方便, 并可不停水或短时间停水更换计算数机构和机芯等特点。

产品符合ISO 4064 B级标准

适用标准: ISO 4064 (GB/T778-1996 JB/T8802-1988)

示值误差限:

从包括最小流量 (q_{min})至不包括分界流量 (q_t) 的低区 $\pm 5\%$
从包括分界流量 (q_t)至包括过载流量 (q_s) 的高区 $\pm 2\%$

使用条件:

水温 $\leq +40^{\circ}\text{C}$ (热水表 $\leq 90^{\circ}\text{C}$) 水压 $\leq 1.0 \text{ MPa}$

EC Certificate of Compliance

NO.: UTS 17 04 0005

Applicant: NINGBO DEJIA WATER METER CO., LTD.

Address: No.555 Haiguan North Road, Gutang Street, Cixi, Zhejiang, China

Manufacturer: NINGBO DEJIA WATER METER CO., LTD.

Address: No.555 Haiguan North Road, Gutang Street, Cixi, Zhejiang, China

Product: Water Meter

Model: LXLC50-300

The submitted products have been tested by us with the listed standards and found
2014/32/EU Measuring equipment (MID)

EN 14154-1:2005+A1:2007

The tests were performed in normal operation mode.

The test results apply only to the particular sample tested and to the specific tests
carried out. This certificate applies specifically to the sample investigated in our test
reference number only. The CE markings as shown below can be affixed on the
product after preparation of necessary technical documentation. Other relevant
Directives have to be observed.
